## CHESS T' MINIT puzzle – May 2017

A simple but beautiful puzzle – white has a clear advantage but only one move wins here. Find the move and the important follow up on the second move.

| 8      |      |   |      |                  |   |   |          |
|--------|------|---|------|------------------|---|---|----------|
| 7      |      |   |      |                  |   |   |          |
| 6      |      |   |      | $\sum_{i=1}^{n}$ |   |   |          |
| 5      |      |   |      |                  |   |   |          |
| 4      |      |   |      |                  |   |   |          |
| 3      | ×+11 |   | t-{} |                  |   |   |          |
| 2      |      |   |      |                  |   |   |          |
| 1<br>a | Ь    | c | đ    | e                | f | q | -<br>Cil |

Solution: 1. e7 is obvious and correct (1 ... Bc6 2. Bd5 then pins the bishop and allows the pawn to queen)
