## MOVE INTO THE OPEN FILE

Now you can accelerate straight to 80386 power and speed. Introducing the innovative COMPAQ 386s. The affordable, high-performance personal computer that brings an even wider range of general business users up to speed with the new 80386 technology. In a sleek package designed with only the features you really need. You'll get:

- The first personal computer ever to use the breakthrough 16-MHz Intel® 386SX microprocessor, so you can run your software up to 60% faster than 10-MHz 80286-based personal computers - a special benefit for chessplayers because, no matter which chess program you use, it will simply play better on a computer which analyses more variations
- One megabyte of high-speed memory standard, expandable to 13 megabytes using a special high-speed Memory Expansion Slot—so other slots are free
- Four internal storage devices with a choice of 110, 40 or 20 megabytes of High-Performance Fixed Disk Drive and 135- or 40-megabyte tape backup option
