by Peter Parr (OAM)

The new FIDE laws of chess are explained on pages 76 and 77. All competitive players should obtain a copy of the complete new rules for tournament/quick play finish/rapid play/blitz etc (see p77).

The number of disputes should be greatly reduced if arbiters and players learn the rules - copies should be available at every chess tournament.

The *Chess Discount Sales Australian Grand Prix for 1997* is the largest Grand

Prix in the annual series. Organisers should submit complete crosstables as soon as their tournament finishes so progress scores can be updated every week.

Kasparov takes on IBM's "Deeper Blue" in a 6 game match for over \$1 million in May (see page 75)

Literally thousands of primary school children Australian wide are now playing chess - an excellent recent development.

Bids for the next Australian Championship close soon.

Sponsorship, a quality venue, guaranteed prize fund, and enthusiastic organisers committee are the key to a successful national congress.

We are pleased to once again publish the ACF rating list in ACM.

All Australian players are encouraged to subscribe to the ACF official magazine ACM - still only \$24 per year.
