

CHESS T' MINIT puzzle – December 2014

Earlier in the year this column had a game featuring World Champion Tal which involved trapping a queen. This month's puzzle is hopefully fairly easy to solve, and again features a game played between Tal and Tringov in 1968. White to play and win a piece.

Solution: 1. Qxd7+ Kxd7 2. Nc5 wins back the queen and nets a bishop.
